Grammar and writing composition

Grammar is very important when it comes to expressing ourselves in English. Without the correct use of grammar and syntax, it is almost impossible to write fluently. Although a lot of children in Hong Kong are exposed to grammar and grammar practices very early on in their academic lives, they often struggle with writing fluently when they get to upper primary. So, it is vitally important that they understand all the important grammatical rules early on to build a strong set of essential skills that they can benefit from for life.

This course focuses on getting you on track with your basic and intermediate grammar through practices of writing.

A new trend of learning English Language – the way it should be.

Many schools in Hong Kong, like St. Paul Co-ed and La-Salle Primary school are shifting from traditional English textbooks to story books when designing their English language curriculums. The reason behind such trend is the fact that a lot of children are struggling to apply their textbook knowledge to English situations. Studies have shown that the most effective way for children to learn grammar, sentence structure and vocabularies is through reading and comprehending them in books.

Therefore, we have designed a very thorough literacy program for early readers, "I can read". We have hand-selected a series of predictable and engaging literacies according to the Australian RR-reading level charts to help emergent your children into reading. We will explore different genres with your kids, the book list includes relatable fictions, non-fictions about science and animals, classics and biographies.

Why is it important for children to read?

- 1) Reading expands a child's vocabulary.
- 2) Stronger comprehension (You can't comprehend what you can't read)
- 3) Early reading skills directly relates to a child's future academic success.
- 4) Stories stimulate imagination and provoke curiosity and discussion
- 5) Build self-confidence and independence.
- 6) It teaches you about grammar, sentence structures and enhance your communication skills.
- 7) Books broaden your outlook horizons by taking you outside of the classroom to places you have never been before.
- 8) The best interest to have!
